

Combine various file formats into a single PDF document.

Merge multiple files together into one PDF by following the steps below:

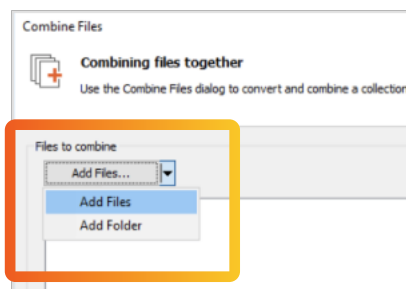

Step 1

Select **Combine** on the Home tab.

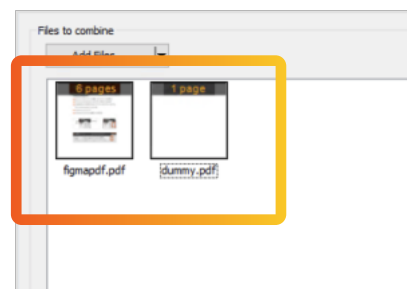

Step 2

Click **Add Files** and select at least two files to combine (image, Word, PowerPoint, Excel, PDF).

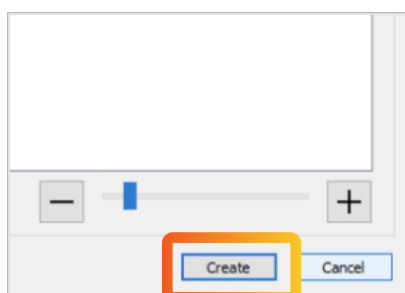

Step 3

Arrange the order by **dragging the documents** around.

Step 4

Click **Create** to view combined PDF.

Step 5

Enter a title for your new combined document and click **Save**. The new combined document will be opened in Nitro Pro.
